

New Year Message

First of all I would like to thank my God and all who made me to be where I am now. Also I would like to use this great opportunity to thank Hillingdon Refugee Support Group, BHUMP and Social Services for looking after me and getting me involved in many activities.

The first thing that I am proud of achieving is improving my English and other subjects as well. Now I'm able to be in contact with lots of people which leads to making many friends. I hope to achieve more in the New Year in order to reach my goals.
